mausoleum of the medusa

It's a fun game, but there's really not much to it at all. At the most, it's a fun time waster.. Very simple. Very good!. You can hit the enemy even if not facing it.. Felt like I was fighting medusa like in the history books.

Need to hit her more than once with no health bar. You will lose interest quickly.. Short but fun, with a dark setting... also the soundtrack is nice :) 7\*10. good soundtrack

good atmosphere

controls need an update, i would recommend a roll or dash

charge slash is useless

do keep an eye on it because it does some things well. The game looks really nice. i like pixel games and the graphics are great. the gameplay (while basic) is very fun. its short but entertaining and best of all its free.

how to kill medusa simulator

-not many tactics

ok to try & kills 5-10mins of ur freetime.... I really loved the pixelated style. The game was simple but for some reason, I hade a hard time with this one. I do recommend that you play it because it is very interesting and has a good concept. I hope you get further than I did.

. A very boring boss fighting sim. Same thing over and over again with the speed of the boss and the amount of projectiles slowly being increased over and over again. Ok for free, but will only last you about 5 min.. Very surprised how simple but fun this is. It's aboutg 10-15 min of free gameplay and I'm OK with that. It's skill based and hitting Medusa is close to pixel perfect.

Obligitory video,

[https://youtu.be/ExbE\\_NhDyeg](https://youtu.be/ExbE_NhDyeg). this stupid ♥♥♥♥ing piece of♥♥♥♥♥♥game. A lot of style, short, and fun. WTF!!
